

Painlessly Get Into The Personalized Photo Products Business DigiLabs' software and printing network powers your photo product business, enabling customers to order from you highly custom photo products including photo books, cards and calendars.

DigiLabs offers the most compelling and simplest way for customers to create and send you photo products orders and DigiLabs will handle printing and fulfillment. Leveraging many years of photo press printing, our solution optimizes workflow efficiency while empowering users with an easy-to-use interface and unprecedented customization that only client software can deliver. DigiLabs software is used by some of the largest labs in the U.S. and is sold by Kodak-NexPress® and Fujifilm USA®.

\$1000 One-Time Set up Fee Gets You In Business: DigiLabs' solution includes private label, client-based authoring software + professional printing and fulfillment services. Upon licensing, partners receive private label version, which can be distributed to unlimited number of customers. Customization includes your logo, splash screen, product mix and more. Solution also includes state-of-the-art press print production using Kodak NexPress and HP Indigo printers and leverages DigiLabs' sophisticated backend server software for optimal production efficiency.

Our pricing model is a simple: one time setup fee and wholesale pricing. Partners set retail pricing so the difference between retail and wholesale is partners' profits.
